

Embarrassing searches shouldn't contaminate browsing history

Searches for
"Asking For A Friend"
over time

Searches for
"Asking For A Friend"
over time

There has to be a **better** way!

NEW! "Asking For A Friend" Google search mode.

- Like private browsing, searches **do not** contaminate search history!
- Uses **machine learning**
 - Learns your **friends**
 - **Guesses** which of your friends would do this search
 - Automatically adds this search and subsequent browsing to the **friend's browsing history!**

DEMO :)

How to turn off **Slack** notifications?

When will my code **finish** executing?

```
print '\n'.join("%i Byte = %i Bit = largest number: %i" % (j, j*8, 256**j-1) for j in (1 << i for i in xrange(8)))
```

Is there **food** in the kitchen right now?

How to set **email filter** based on sender?

The screenshot shows an email inbox interface. At the top, a search bar contains the filter 'from:lazowska@cs.washington.edu'. Below the search bar are several action buttons: a minus sign, a plus sign, an exclamation mark, a trash can, 'Move to Inbox', and a tag icon. A 'More' button is also present. To the right of these buttons, it says '1-26 of 26' with navigation arrows and a settings gear icon.

The email list shows three messages from 'Ed Lazowska'. The second message is highlighted in yellow. A 'More' menu is open over the second message, listing several actions: 'Mark as unread', 'Mark as not important', 'Add to Tasks', 'Add star', 'Filter messages like these' (which is highlighted), 'Mute', and 'Create filter'.

Message	Sender	Subject	Date
<input type="checkbox"/> ★ 📁	Ed Lazowska	[diversity-allies] Here's a good	May 4
<input checked="" type="checkbox"/> ☆ 📁	Ed Lazowska	[Researchers] UW/Facebook	Apr 23
<input type="checkbox"/> ☆ 📁	Ed, Richard (2)	Re: [Researchers] Toyota? - nyuk nyu	Jan 27
