

**Department of Computer Science & Engineering  
University of Washington**

**Self-Study  
in connection with the  
Ten-Year Review of the Department's Degree Programs**

**January 2000**

**Members of the Review Committee:**

**Thomas L. Daniel (Committee Chair)**

**Komen Professor, Department of Zoology, University of Washington**

**Jeanne Ferrante**

**Professor of Computer Science & Engineering, University of California, San Diego**

**Charles W.L. Hill**

**Hughes M. Blake Professor, School of Business, University of Washington**

**Deirdre R. Meldrum**

**Professor, Department of Electrical Engineering, University of Washington**

**William A. Wulf**

**University Professor and AT&T Professor of Computer Science, University of Virginia;  
President, National Academy of Engineering**

This self-study was prepared by the department's Executive Committee and staff. It was published on the web, and comments were actively solicited from all members of the department: faculty, staff, visitors, postdocs, graduate students, undergraduate students, and adjuncts/affiliates.

It was a topic of discussion at faculty, staff, and student meetings.

## Table of Contents

### I. Context

- A. The University of Washington in the 21<sup>st</sup> century
- B. A high-level view of CSE's strategies in the past decade
- C. Specific recent accomplishments
- D. From excellence at the core

### III. Educational programs

- A. Educational philosophy
- B. Overview
- C. Bachelors programs
- D. Professional Masters program
- E. Full-time graduate program
- F. Results of surveys of graduating students
- G. Enrollment trends

### IV. Responses to change

- A. Overview
- B. Critical issues and opportunities

### V. Goals

- A. Goal-setting process
- B. Goals

### Appendices

- A. Graduate student statistical summary (from the Graduate School) – see also Appendices K and L for a departmental view of this data
- B. Academic unit profile (from the Office of Planning and Budgeting) – see also Appendix R for a departmental view of the financial data, and Section III and various appendices for a departmental view of the student data
- C. List of special pathways, options, certificates, etc., within degrees
- D. List of faculty by rank
- E. Placement of graduates
- F. Prescribed “Self Study” format
- G. Department organization charts
- H. Report of the CSE External Advisory Committee (July 1999)
- I. Dean's nomination of CSE for 1999 Brotman Award for Instructional Excellence
- J. Bachelors program application / admission / matriculation statistics

- K. Professional Masters Program application / admission / matriculation / enrollment statistics**
- L. Full-Time graduate program application / admission / matriculation / enrollment / support / demographic statistics**
- M. Results of surveys of graduating students (from the Office of Educational Assessment)**
- N. Undergraduate and graduate program brochures**
- O. Capstone Design Course video**
- P. *Departmental Principles Regarding Commercial Activities* (September 1999)**
- Q. *Vision Statement and Strategic Plan* (January 2000)**
- R. Budgetary and salary information**
- S. Faculty CVs**
